

DIRECT DRAW KEG REFRIGERATORS

EBD – Series

• EBD1 • EBD2 • EBD3 • EBD4

Cabinet Construction

Heavy duty stainless steel countertop and rail, and textured and laminated black vinyl exterior. Galvanized steel interior wall, and high quality stainless steel floor. 1 3/4" thick high density foamed-in-place polyurethane insulation. Pre-installed four 4" diameter casters for single door unit. Built in caster thread receptacles for all units.

Refrigeration System

- Back mounted condensing unit for single door, and side mounted condensing unit for two and three door models
- Oversized condenser and evaporator coil cools to set and maintain temperature in minimum time period
- Forced-air cooling with oversized evaporator fan motors providing balanced airflow throughout cabinet to ensure faster temperature drop
- Removable side panel and slide-out condensing unit for convenient repair and maintenance
- Environmentally friendly CFC free R-134A refrigerant
- Air defrost controlled by electrical timer
- Copper tube and aluminum fin evaporator with anti-corrosive coating
- Energy efficient condensate drain pan assembly heated by high side copper tube
- Pre-wired and ready to plug, 115V/60Hz/1Ph, NEMA 5-15P

Doors

- Textured and laminated black exterior and galvanized steel interior
- 1 3/4" thick high density foamed-in-place polyurethane insulation
- One piece snap-in magnetic door gasket for easy replacement
- Heavy duty recessed door handles for a flat surface
- Door locks

Draft Arms

- NSF approved 3" diameter insulated stainless steel draft arm with air distributor
- One draft arm for model EBD1, and two draft arms for two and three door models

Lighting

- Safety shielded incandescent interior lighting (except model EBD1)

Temperature Control

- Factory preset temperature, 35°F
- Temperature setting range from 33°F to 41°F
- Easy to set analog thermostat

Option

- 2 1/2" and 4" diameter casters (3" and 5" overall height)
- Dual faucet
